Sharpen your leadership skills and improve the quality of community life

Get On Board! The Art of Board Governance Seminar introduces board members to the fundamentals of effective governance by defining the basic roles of the board and examining strategies for building effective board structures. As volunteer leaders, board members play an important role in the success of any organization. Boards have significant legal and ethical responsibilities to their constituents, staff, and communities. Strong, knowledgeable boards help organizations gain credibility, provide important access to the community, and serve as effective advocates.

Get On Board! also helps prepare board and staff to work together to build strong and productive relationships. This training provides guidance on how to distinguish between shaping policy and hands-on management and will help new and existing board members clarify the board's role and strengthen its capacity to govern. **Increase your potential** to change our community for the better and improve the quality of life in Tampa Bay by sharpening your skills on board governance and board development.

Seminar Topics:

- Why We Do What We Do!
- Conflicts of Interest & Legal Liability
- Board Assessment
- Financial Oversight
- Strategic Planning
- The Board's Role as Fundraisers
- Telling Your Organization's Story
