

Technology 101 & 102

featuring

John Roll

Technology Consultant

John Roll

Technology 101

Tuesday, September 18, 2007
9:00 a.m. to 1:00 p.m.

Face your fears of technology and join John Roll for a lesson in the basics. You will learn valuable technology terminology and discuss how its use impacts your organization. You will gain the tools to understand your current technology configuration and how to ensure that your technology investments provide the maximum benefit to your organization.

Technology 102

Tuesday, September 25, 2007
9:00 a.m. to 12:00 p.m.

Choosing computer systems and software can be one of the largest expenditures that your organization will make. Join John Roll and learn how to effectively document your system requirements so that you can select the right solution to advance your organization. Learn about system architecture, application hosting options, software licensing options, and much more.
